KAYAK CANOE

Eco friendly paddle boats

worldwide rotomoulder

ROTO is a family business company with more than 70 years tradition. The headquarters is in the Slovenia. Production is organized in 8 factories in different European countries. The company employs more than 550 people and had revenues of 82 mio euro. ROTO exports its products to 65 countries all around the world. Run by the Pavlinjek family, the company has built a global reputation for the quality of its products.

ROTO manufactures more than 4,000 different products. Many of them are made using rotational molding. Indeed, ROTO is one of the market leaders in its industry. It has been responsible for many innovations in plastic- molding technology during the last 45 years and has worked closely with universities, institutes and plastics industry associations. The company's main production segments are final products for sport, nautic, agriculture, ecology, gardening. Using plastics composites and the latest production technologies, ROTO also makes kayaks, canoes and high-performance boats.

Manufacturing as a custom molder, ROTO serves a wide variety of industry sectors including construction, automotive, nautical, logistics, aquaculture and agricultural machinery. Its custom-molded products include fuel and water tanks for motorcycles, tractors, trucks, sailing boats and motorboats, caravans and motorhomes, and components for many different machines.

Its custom- molded products include fuel and water tanks for motorcycles, tractors, trucks, sailing boats and motorboats, caravans and motorhomes, and components for many different machines.

ROTO works to increase its products' value by enhancing their design, intelligently using materials and modern production technologies, and ensuring a high-quality nish. The company also takes great pride in its after-sales service and customer technical support.

RECYCLING AND SUSTAINABILITY

The Roto Group has been recycling polyethylene for over 30 years. We buy waste polyethylene on the market and recycle our used products that we get from customers 100%. In the past, we used these materials again to make garden furniture and planters.

This year we started producing a special **PE recycled line** of kayaks and canoes. In our laboratory, we produce material from recycled packaging, which is collected from the nature during ecological campaigns. Waste packaging is supplied to us also by shops and other factories.

We care for the future generations. We do everything we can to protect a clean environment.

Benjamin Savšek - Roto ambassador of PeCycled kayaks and canoes

save the nature recycle your old kayak/canoe

Return your old kayaks and canoes to Roto. We can recycle them and produce new products. You will save the nature and receive discount by buying new rotoAttivo kayaks and canoes.
